AYER'S
CHERRY PECTORAL,

For the rapid cure of Coughs, Cold, Hoarseness, Bronchitis, Whooping-Cough, Croup, Asthma and Consumption.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs. Also in milder cases, and for children it is safe, pleasant, and effectual, to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The Cherry Pectoral is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

SHELL, Back and side combs, fine ivory combs, coarse and fine dressing, just received at GORTON ANDERSON'S,
j7 163 Thames Street.

Dr. Marchisi's Uterine Catholicon!

THE UNDERSIGNED, HAVING BECOME AGENTS FOR THIS INVALUABLE MEDICINE, would respectfully invite the attention of the afflicted to the gratifying success that has attended its use, wherever introduced, and its happy adaptation to the cure of the distressing diseases for which it is offered.

This CATHOLICON is in truth one of the GREATEST MEDICAL DISCOVERIES OF THE AGE, and is destined to become identified with the health and happiness of

FEMALES.

This declaration is based on the fact that it will cure more than nine-tenths of a class of very prevalent diseases, known as

FEMALE COMPLAINTS,

and which have heretofore resisted the skill and exertions of the most accomplished Physicians of all countries, to a degree beyond that of almost every other malady to which the human family is heir. It has already received the approbation and liberal patronage of very many prominent members of the Medical Faculty in the United States, willing to abide the truth, and having due regard for the welfare of their patients, and is in every way worthy the confidence of the afflicted, as *A SUCCESSFUL, SAFE* and *CHEAP REMEDY.* Of this additional proof will be found in the pamphlet, to which the attention of Ladies and Practitioners is respectfully invited.

This medicine has never been introduced by empty puffs and misrepresentations, nor is it intended that its present popularity shall be sustained by any medium but its merits and the approbation of the public.

The CATHOLICON is not a "cure-all," but is intended expressly for those complaints incidental to the respectable female whether married or single.—PROLAPSUS UTERI, FLUOR ALBUS, CHRONIC INFLAMMATION AND ULCERATION OF THE UTERUS, INCIDENTAL HÆMORRHAGE, PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with their accompanying evils. (Cancer excepted,) no matter how severe, or of how long standing.

☞ Pamphlets can be had gratis, of the agents, C. G. C. HAZARD, R. J. TAYLOR.

SPECIAL NOTICE.
FRENCH PERIODICAL DROPS.

MRS. S. M. CUDWORTH, No. 100 High street, Providence, R. I., would say she has, at great expense, obtained from Dr. D. C. Harrington, the original recipe for manufacturing, together with his plate for putting up the medicine known as the

FRENCH PERIODICAL DROPS.

discovered by J. Harrington, M. D., while practicing in the hospital in Paris, under the immediate observation of the renowned Ricord of Paris and Acton of London.

The Drops are invariably certain to regulate the Female System and can be taken without hazard. They are known by hundreds of females in this country to be the only preparation ever discovered that has proved invariably certain in all cases of Suppressions, Irregularities &c. One trial will convince the most skeptical and never after will they be induced to try any other. Ladies who have often been deceived by purchasing Pills and Nostrums from Male and Female Impostors, under pretence of effecting cures, medicines which in nineteen cases out of twenty have an injurious effect upon the system without effecting the desired result or any sign of it, should shun these bipeds and use none but the genuine FRENCH PERIODICAL DROPS, the efficacy of which has been tested in hundreds of cases and NEVER FAILED to effect a speedy cure without any bad result. The drops are the result of an extensive practice and not discovered by accident. To eulogize their virtues would not add to their merits. We would only say try them. They will be sent to any part of the country secure from observation by addressing (post paid) MRS. S. M. CUDWORTH, 100 High street, Providence, R. I., and at no other place in Providence.

Full directions accompanying each bottle.—Price Five Dollars.

N. B. The usual discount to those that wish to sell again.

ISAAC P. HAZARD, of Newport.
AMOS D. SMITH, of Providence,
CHARLES ALLEN, of North Kingstown,

☞As we stated yesterday, the new Catholic Church, in this town, was dedicated, or blessed, on Sunday morning last.

It was filled by a large audience, all of whom attentively listened to all the services with true feelings of devotion.

The procession was formed at the West door, and moved around the building, on the outside, in the following order:—Cross-bearer, bearing a beautiful Processional Cross, Accolites, Sanctuary boys, Rev. Clergy and the Right Rev. Bishop O'Reiley. The Bishop appeared in Pontificals, wearing his mitre and stole, and bearing his pastoral staff.

The *Miserere* was chanted; the Bishop sprinkled the walls with Holy water, repeating, "*Asperges me, Domine, hyssopo, et mundabor; lavabis me, et super nivem dealbabor.*" The Bishop then sung a short prayer, invoking the blessing of God on the house, &c.

The procession then entered the Church, singing the Litany of the Saints.

After repeating several prayers at the altar, the procession was again formed and marched around the house, on the inside, the Bishop sprinkling the walls with Holy water,—the clergy singing the 119th, 120th and 121st Psalms.

The dedication ceremony then concluded with the prayer, "Oh God who dost sanctify this place which is dedicated to Thy Name," &c.

The Mass was then said, after which Bishop O'Reiley preached an able and appropriate Sermon, which was listened to by all present, Catholics and Protestants, with evident satisfaction. The following are the clergymen who were present:—Bishop O'Reiley, of Providence; Bishop Fitzpatrick, of Boston; Rev. N. O'Brien, of Boston, Master of Ceremonies; Very Rev. Hugh McMahon, Vicar General of Pittsburgh, and Arch Deacon of the day; Rev. J. Hughes, Deacon of office; Mr. Murray, sub Deacon; Messrs. Lynch and Durfee, Deacons of Order. The scene was very imposing and impressive, and was in keeping with the grandeur of the edifice.—

We give the following description of the Church for the benefit of those who have not seen it. It was designed by and has been erected under the care of that first of Catholic architects, P. C. Keely, Esq., and superintended by the worthy Pastor Rev. James Fitton, whose zeal and taste are appreciated not only by his own Church, but also by the whole community,—long may he be spared among us, to continue his ministrations of love and mercy.

This sacred edifice is of the second period of Gothic architecture. It has a cleristory, and comprises a well defined chancel, a nave and aisles, a tower, porch and sacristy. Its length east and west, from out to out of walls, including chancel is about 135 feet; its width is 65 feet. To the corbel table of aisle walls is 24 ft.; to the corbel of nave is 48 ft.; to the apex of nave gable is 70 ft.; while the height of tower to the start of spire is 68 ft. The foundation walls, broad and deep, of solid granite blocks, are laid with best cement mortar, the same as used throughout the entire work, which already petrified, have become a solid mass, to bear up the superstructure for centuries to come. All, above the foundation, is built of Connecticut free stone, laid in quarry beds, with windows and door jams, lable mouldings, cills, corbel-tables, gabel offsetts, etc., etc., neatly cut.

The front, raised five feet above the level of the street, as the land falls from east to west, with its graduated green slope, trees, shrubbery, and variegated living ivy, here brought from the very centre of Ireland, is supported by massive buttresses with deep bases, dripstones and offsetts. The tower, which is at the northwest corner, is supported by still more massive buttresses, with bases of bold projection, and is lighted by six richly wrought windows, in the first and second stories, while the upper, which is really ornate in its character, is pierced on every side by belfrey windows, with louvre-boarding. High over the doorway, is seen conspicuously, the monogram of the Blessed Mother under whose protecting care the first stone of this sacred edifice was laid. The spire, 'pointing in silence heavenward,' when completed, pierced on all sides with spire-lights and canopies, to admit, as it were, the penitent's sigh to ascend, surmounted with its finial and cross, the emblem of man's salvation, will present a holy and characteristic feature in the outline of the holy pile.

The nave and aisle walls are supported by buttresses, divided into two or more stages, with graduated offsetts, and finished with corbel-tables. The door of the west entrance, the tower and south porch doors, with their deeply splade jambs and graceful mouldings, are hung with bronzed floriated hinges.

The large west window, divided by mullions into three, clery and aisles into two, and the chancel window into five compartments, are all filled, as are the circular and quatrefoils in the gables and end of aisles, with stained glass of varied designs, and present the most beautiful contrast in massive flame-like tracery.

The south porch, with its high-pitched roof, which is so ornamental as well as useful an appendage to every Church, as it is here, agreeably with the rubrics, that the religious ceremonies of baptism, the Office in Holy Week, &c., are commenced, and where the benatura, or holy water font was placed in ancient churches, is in the first compartment from the west end. The plan is square; the interior is lighted by small windows; the walls are of stone, while the roof shows the frame work of the timbers; and the high pointed gable, on which is engraven on a prominent star, *Sancta Maria, Ora pro nobis*, is surmounted by a floriated stone cross.

The Sacristy, is built on the South side of the chancel, and is lighted by small coupled cancel windows, widely splade. Having made this brief sketch of the exterior; we will pass to the interior of the sacred edifice.

The clerestory walls are supported by rows of elaborately wrought columns of varied designs, with the bases, and plinths cut from the solid rocks by the hands of master-workmen. The capitals are enriched by entwining branches of leaves, fruit and flowers, most gracefully wrought after nature's own fashioning. The arcades of clerestory arches with their deep and rich mouldings, present a fine bold effect, with their light and shade, in the distinct separation of nave and aisles.

The chancel is separated from the Nave by deep richly moulded jambs with bases, shafts, and capitals, the enrichment of which latter are incomparably and appropriately beautiful, being formed of the grape-vine fruit and foliage.—The chancel arch from its altitude and proportions, with its massive group of members, grand, noble and imposing.—The pendent shafts of the nave, with their graceful abaci and foliaged capitals and octagon bases, are supported by heads of the apostles and other saints of the Church. All the windows are finished with tripple checked cills, with hood-mouldings and corbels, of graceful and rich patterns, which runs a moulded string-course filled with ball flowers. The chancel with its clustered columns and deep mouldings, its recess for the Bishop's chair and its stalls for the clergy with their crocketing and finials is grand, and when the Altar and tabernacle work is completed, will be magnificent. At the termini of the aisles there are recesses, with niches, mouldings, &c., for the chapels or side altars.

The roof of nave, aisles and chancel is open work highly decorated, with massive mouldings on purlins, and principals filled with rich carved tracery, angels clasping the hammer beams with their wings, perforated battlement, &c., all in oak. The panelling through ultramarine blue, is filled with decorated crosses and symbolic emblems in gold and other rich colouring, while the chancel ceiling, of more elaborate design, is covered with diaper work and holy symbolism in rich polycrowe. The frieze, throughout the chancel, nave, and aisles of deep crimson, is covered with sacred texts in the old English character with illuminated capitals.

All the aisle and cleristory windows are, as we have said, filled with stained glass of varied design and ornament, which in their varied delicacy of tint in tracery and rich bordering, are unsurpassed; but the chancel window is glorious. This is thirteen by twenty-seven feet opening. In the centre bay or compartment, is represented the ascension of the Blessed Virgin, with angels proclaiming her Queen of Heaven.—The balance of the window is composed of nearly one hundred and fifty distinct figures from the famed school of Munich. On eight large panes are represented, first, the intercession of the Blessed Mother for a weary traveller, who, in the foreground is lying down exhausted and a mist spread over him: our Lord is seated on a throne, while the Blessed Virgin is kneeling supplicating mercy for the traveller, with groups of angels assisting. The second represents the traveller lying at the foot of a tree in the night with angel guardian holding a torch light over him, while above, the sky is bespangled with stars. The third represents the Blessed Virgin standing on the clouds with hands extended, in act of protection over groups of men and women, whose quiet placid countenances are holy and most life-like. The fourth is the protection of the Blessed Virgin over a young lady who had been devoted to her, who is recieving the veil from a Bishop, with nuns and other holy women present; the interior view of the convent is beautiful. The fifth is the font or well of La Maria, where the cup of water is given to the dead child, with groups of women and children present, while the shrine of the Blessed Mother is seen in the distance. The sixth shows the Blessed Virgin raising the human family from sin, represented in the form of a child, who is rejoiced and recieves a picture of the Virgin and child, while the apostles are in attendance. The seventh represents Constantine crowned by a bishop, at which ceremony the Blessed Virgin is in attendance, to reward him for his zeal to the church. The eight is the last communion of St. Jerome, with the Blessed Virgin at his bedside, and his angel guardian smiling with delight ready to accompany him to his heavenly home. The remaining portions of this most magnificent window are filled up with representation of the instruments of our Saviour's passion, the crown of thorns, the hammer, nails and pincers, the pillar and scourges, the seamless garment and dice, the ladder, spear and sponge and the five bleeding wounds.

It is a noble structure, and an enduring ornament to the town; one which all our citizens, of whatever denomination or creed, should feel justly proud.

The painting of the ceiling, walls, &c., is very beautiful and was executed by Mr. Thomas Coggeshall, of this town.

☞Bishop Doane, of New Jersey, preached at Trinity Church last Sunday morning.

☞Last Sunday evening our citizens were highly favored by an address from the Rev. Charles Spear, editor of the Prisoner's Friend, Boston, on his late mission to England. Mr. Spear described the situation of Prisoners in England and France; his interviews with Sir George Grey, her majesty's Secretary, Lord Ashley, the family of Mrs. Elizabeth Fry, and many others.—He spoke in the warmest manner of the kindness of Mr. Webster in furnishing him with a letter which carried him through Europe. Mr. Spear stated particularly that on his arrival in Paris he could not have entered the prisons had it not been for Mr. Webster's name, —that name, he said, at once arrested the entire attention of the whole Police of Paris. It unlocked the door of every prison, it gave free entrance to every literary institution, it opened the door of every palace, and secured the attention and respect of the very highest officers connected with the British Government.

In the course of his lecture, Mr. Spear spoke of the Ragged Schools of London, and of the difficulty of finding employment for prisoners. He pointed out, in the strongest manner, the want of labor for discharged prisoners. He gave a very touching anecdote of the labors of the daughters of Mrs. Fry, in providing for a female culprit. Mr. Spear then took occasion to refer to his own labors in this department; he spoke of the discharged prisoners he had had in his own house.—In short, Mr. Spear pointed out, as we think, the two philosophy of Reform.

He thanked the Rev. Dr. Choules for the affectionate manner in which he had welcomed him to his church; Dr. Choules certainly manifested a kind and charitable spirit in thus opening his house to one from whom he differs so widely in his theological tenets.

Mr. Spear, we are sorry to say, is in poor health. He needs more sympathy. We regret to learn that his late mission to England has embarrassed him in his pecuniary affairs. "His work," as Mr. Webster says in his letter, "is one of charity, and he expects no compensation from any government." Of course then, Mr. Spear, with no means of his own, depends entirely upon the contributions of the charitable. Shall there be a response in Newport?

☞Mr. Bristow, Writing Master, at Masonic Hall, in Church St., guarantees to Gentlemen a free, rapid, beautiful hand. To Ladies a pretty, delicate style, for only a few dollars. Call soon, as Mr. B's. stay in Newport is short,

---

☞By advertisement in another column it will be seen that the second Grand Cancert of the Germania Society, and the 536th in America, will be given in the Dining Hall of the Atlantic House, on Thursday evening next; as the season is now farily open, we have no doubt the Hall will be entirely filled.

☞Bennett fills about three columns of his Saturday's paper with abusive slang in regard to Newport, and its society; all his statements are false, and the remarks of his correspondents are as infamous as even he could desire. It is useless ever to deny anything which he utters, or to reply to his remarks, for he is beneath even contempt; he is utterly impotent, for no one has any respect for him or reposes any confidence in what he says. He was as unfortunate in his Hotel experience here, some years ago, as he was at Long's, Hotel, Bond street, London. All that he uttered on Saturday was false, and the blackguard writers dare not let their names be known to the public.

He has beslimed the whole community, and every visitor who is here; and if no one knew his character before, this wholesale bedaubing would satisfy every one that he was a worthless blackguard. He does not appear to have been made better, in the least degree, by the nine public cowhidings which he has had.—Perhaps he requires a tenth, even more severe than any of the others have been.

☞It is said that Edwin Forrest is about to marry a beautiful lady from the high circles of Philadelphia.

☞The steamer Baltic arrived at New York Sunday morning; the news is not of especial interest,—affairs are quiet on the continent.

☞The Episcopal Churches in this town are hung in morning, as a token of respect to the memory of the late Bishop Henshaw.

A Dutchman who had a brother hung in this country, wrote to his relatives, informing them that his brother had been placed in a public situation by the government, and at the time of his death had several thousand people, including the sheriff and grand jury *under* him.

When the late Lord Erskine, then going the circuit, was asked by his landlord how he had slept, he replied, "Union is strength—a fact of which your inmates seem to be unaware; for had the fleas been unanimous last night, they might have pushed me out of bed."

"Fleas!" exclaimed Boniface, affecting great astonishment, "I was not aware that I had a single one in the house."

"I don't believe you have," retorted his lordship, "they are all married, and have uncommonly large families!"

☞We give it up that Gen. Pierce has one advantage over Gen. Scott.—Gen. Pillow testifies that Gen. Pierce "*served under me*" (Pillow) in Mexico. Alas for poor Scott, *he* never had *that* honor.—*Pulaski Tenn. Gazette.*

OYSTER SHELLS FOR FRUIT TREES.—A correspondent writes to us as follows:

"One of the most effectual applications I have ever made to fruit trees, in an old and barren situation, is a compost in which finely broken oyster shells were the principal ingredient. The shells have generally a large per centage of saline matter attaching to them, in a fresh state, with some animal matter and much lime. By breaking them, and mixing them with wood ashes, and spreading it thickly around old trees, an almost immediate and decided improvement will take place."—*Ger. Telegraph.*

"OH, HOW CAN I BE CURED!" exclaimed a Lady who had been afflicted, as many Ladies are, for years. A friend replied, "By taking Morse's Compound Syrup of Yellow Dock Root. I have been cured by it and many others whom I know." She procured some and took it and was soon cured of complaints which had baffled the skill of the ablest Physicians for years. "Go and do likewise." Sold by C. G. C. HAZARD.

PUBLIC SCHOOL NOTICE.—The Public School Committee will meet at the Public School House in Clarke Street, on Friday, Aug. 26th, 1852, at 3 P. M., for the purpose of examining applicants for the situation of Teacher for Boys' School, Marlborough Street.

FACTS FOR THE CANDID—PLEASE READ THE FOLLOWING LETTER.

To Dr. Weaver, New London, Conn.

This is to certify that I, the undersigned, have been afflicted more or less with sore legs for three years or more, not deep but on the surface, and discharged a thin watery substance. I have tried many kinds of medicine, and recieved all kinds of prescriptions, which were offered as well from Quackopathy and Allopathy as Homœpathy, and all to little or no purpose. Sometimes they would appear some better for a few weeks, and then worse again, until I finally began to be sometimes discouraged. About this time I saw a certificate in a newspaper, signed by the Hon. Joel Loomis, of East Lyme, Ct., setting forth his case, and the benefit he had recieved from your Syrup; but I was still incredulous, until I wrote him a letter making the necessary inquiries, and when I recieved his answer, which appeared to be so candid, and he detailed his case, (which was a bad one) so minutely, and advised me to try it, that my confidence became pretty strong. I immediately obtained of your agent in Taunton, Mr. B. O. Dunbar, a bottle of your Syrup, and a pot of Cerate, and went to work according to directions, and in about a fortnight I perceived a considerable improvement. This was the first of last October, and in January they were all healed up smooth and sound, and remain so still. And now as it respects my case, it would be very difficult for me to name a sum of money to make me willing to be placed back again as I was last October, and I would advise all who are afflicted with the like disease, to obtain immediately some of Dr. Weaver's Syrup, and go to work with it. You may not recieve so much benefit from it as I have, but it will do you no harm if it does you no good. The world is full of what is called quack medicine, but after all, there is some of your so called quack medicine that is a sovereign remedy for some diseases, and the best way to know is to try and see for yourself. Necessity compels a man, sometimes to throw all his prejudices to the wind, and to try medicine which he has heretofore despised and ridiculed, and the Doctors—and is necessitated at last to put his hand on his mouth, and his mouth to the dust. My age is seventy-one years.

Yours Respectfully,

Taunton, March 30th, 1852. SETH PREBBREY.

N. B.—I do not mean to stigmatize the above named medicine, as I understand that Dr. Weaver is a regular bred Physician of the old School. j14

COMPETITON, ICE CREAM.

MANY of the consumers of Ice Cream at Newport, (being from various parts of the country) not being aware of the superiority of some Ice Cream to be had in town, over that which has been generally furnished; and that as the subscriber believes that it would be to his interest to have this fact more generally known; further to correct the impression that he charges more for his Ice Cream than others; has used the *Daily News*, as a means to inform the public; hence his advertisements.

He would add that "an increased demand" for Ice Cream may be consequent upon an increased number of consumers; and not "a positive guarantee of its superiority over all other creams that is manufactured in this place." He might assert that the demand for his Ice Cream this season has increased three hundred per cent, which fact his books will attest. As to begging the community to try his Ice Cream,—if respectfully soliciting patronage be begging, then he will beg, pledging himself to furnish a fair remuneration for that given; something superior to any thing furnished in the cream line; will you be pleased to try it?

PERRY CO. WARM SPRINGS.

THE proprietor of this pleasant and delightful Watering Place, feeling highly gratified with the success which has attended his management of the above establishment during the two past seasons, has increased his efforts to render the place and accommodations still more inviting and comfortable by adding a large building to the same.

The Warm Springs are situated in Perry county, Pa., on Sherman's Creek, one of the healthiest situations in the State. These Waters are well known for their excellent medicinal qualities, and for the permanent cures of Scrofula, Tetter, and all eruptions and diseases of the skin.

The Springs are accessible by the Central Railroad to Duncannon, where a coach will always be in readiness, on the arrival of the cars from the East, to convey passengers who desire to visit the Springs, 14 miles N. W. of Duncannon. All persons leaving Philadelphia in the morning train of cars can arrive at the Springs early the same evening. The coach will commence running daily on and after the 1st day of June next, and continue during the season, leaving the Springs every morning so as to reach the cars going East. There will also a coach be run daily from Carlisle, by Mr. Hendle, on the arrival of the cars from the East, for the Springs, the distance being 14 miles—the route passing by the Carlisle Sulphur Springs, and Sterrett's Gap, and affording one of the most delightful views of the Cumberland Valley to be found.

All Communications for the Warm Springs should be directed to Duncannon P. O., and will then arrive at the Springs daily.

The terms for boarding will be moderate, and every attention paid to those who may be pleased to pay him a visit during the season. Ample provision has been made for gymnastic exercise and pastime amusements, while Sherman's Creek affords delightful fishing, as well as sailing in boats.

The subscriber has the pleasure of referring to the patrons who favored him with their company the past season; among whom are—

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA, BRONCHITIS, GENERAL DEBILITY AND ALL SCROFULOUS HUMORS.

THE proprietor has succeeded (from directions of Professor Stone, in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the clear oil, the following case, by Professor Stone, is sufficient to convince the most sceptical. The young lady was 24 years of age.

"Her disease was one of unmixed phthisis, which had been expected to terminate in the course of a few months fatally. The upper part of both her lungs were filled with tubercles, and in some places were beginning to soften. The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but without marked improvement. The Phosphate of Lime was then administered with the Oil, and the result, as in the case of many others, was soon apparent.— The patient was rapidly getting well."

This preparation does not like the Cod Liver Oil become rancid which makes it very desirable for Persons travelling as it keeps fresh for a long time.

ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S

PEPSIN,

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water, will digest or dissolve *Five Pounds of Roast Beef in about two hours*, out of the stomach.

Pepsin is the chief element, or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food, the Purifying, Preserving*, and *Stimulating* Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree curious and remarkable.

SCIENTIFIC EVIDENCE! Baron Liebig, in his celebrated work on Animal Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be *softened, changed, and digested, just in the same manner as they would be in the human stomach.*"

☞ Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence, similar to the above, together with Reports of Remarkable Cures, from all parts of the United States.

AS A DYSPEPSIA CURER, Dr. Houghton's Pepsin has produced the most *marvellous effects*, in curing cases of *Debility, Emaciation, Nervous Decline*, and Dyspeptic Consumption. It is impossible to give the Details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs, upon the Digestive Organs, after a long sickness. Also for excess in eating, and the too free use of ardent spirits. It almost reconciles *Health with Intemperance.*

Dr. Houghton's Pepsin is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is Not A Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price, One Dollar per bottle.

☞ Observe this!—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copy-right and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicines. Agents, R. R. HAZARD & CO., Apothecaries' Hall, Newport, Wholesale and Retail Agents.

"A LITTLE KNOWLEDGE IS A DANGEROUS THING."

THIS saying has but a partial application.—A very little knowledge of the physiology of the hair teaches that want of care deprives many of that most becoming ornament to the person. Those who would desire to preserve their heads from baldness, cure diseases on the scalp, prevent discoloration, and secure a glossiness and softness of texture, should use Bogle's Hyperion Fluid.

Many look upon the process of shaving as one which requires a merely mechanical attention to accomplish perfectly. It is not so. The conditions which furnish the speediest and easiest accomplishment are a healthy state of the skin, and a suitable lather to preserve its soundness.—Bogle's Amole is the most approved article for softening and smoothing the skin, and imparting to it an elasticity inconsistent with any chance of irritation, or eruptions which follow it. Sold by Wm. Bogle's Agents.

LOVET'S WAHPENE.

THIS admirable preparation for restoring the hair, in cases of baldness, preventing it from falling off, and restoring the natural color of the hair, where it has become grey, rendering it clean, luxuriant, and glossy, preserving the rich appearance of youth, even in old age,—and restoring every hair to its original shade, by its invigorating power upon the bulbs that furnish nutriment and color to the capillary tobe, still retains its unparalleled popularity. If the directions are strictly followed, and the hair is not restored to its original color, as promised, the money will be returned, as per Warrantee of H. T. A CARD,

DOCT. F. GOURAUD,

Medical Doctor, a graduate of the Academy of Medicine and Surgery of Paris, France.

SURGEON OCULIST,

DENTIST,

AND PROFESSOR OF CHEMISTRY.

has the honor to apprise the Ladies and Gentlemen of Newport and vicinity; and, in general his old acquaintances and former patients, for this sixteen years past, that he has begun anew his former practice of Medicine and Surgery, at his Dwelling No. 19 Bridge Street, where he offers his professional services to them, as a Surgeon Dentist and Oculist: his long experience and reasonable warranties, given to those who place confidence in his skill, dexterity and performances in giving general satisfaction, will have the merit to assure an enlightened public that their patronage will not be met with, under regard to their trust either for themselves or their children in regulating the defects of their teeth in the different operations performed in the art of Dentistry upon them.

As a Surgeon Oculist, in the varieties of diseases either chronic, inflammatories or accidentals, which afflict the Eyes and the sight, either in young subjects or older ones, the Doctor during his late sojourn in the city of Paris, has by deep scientific and laborious studies, rendered himself eminently acquainted with them, principally with those concerning the operations performed on STRABICS SUBJECTS, or Squint Eyed.

This delicate operation which gives immediate relief to an awkward and disagreeable deformity of nature, performed by a skilful operator, is reduced to about 30 seconds, or, to the farthest, to one minute's anxiety; and, no other hurt or sensation than the feeling of a mite of sand, entering under the Eyelids, or the prick of a fine cambric linen needle, introduced in the flesh; as an evidence, the only sight or inspection of the instruments used in performing the operation, will be all sufficient to induce a durable, without any hesitation to desire the immediate performance of the operation.

It is necessary here to state, that in 1841, the Doctor was the First practitioner who introduced and performed the operation of strabismus, in the city of New York, upon 24 Strabics subjects, with an indisputable success, after having operated upon upwards of 300 in France.

He will also be prepared at all times to carry passengers to and from the boats.

He has accommodations to board 15 horses for the season, and will give them as good stall, fodder, &c., as can be afforded at any other stable in town. All orders left at 181 Thames street, at the United States Hotel, or at the stable, will be punctually attended to.

THE ONLY ORIGINAL AND GENUINE

CLIREHUGH'S

TRICOPHEROUS!

Let those now use
Who never used before,
And those who always used
Now use the more.

REDUCED FROM ONE DOLLAR

TO FIFTY CENTS PER BOTTLE!

THIS justly celebrated and widely known compound which for sixteen years has met with distinguished success wherever it has been introduced, is now reduced to such a low price as will enable it to be within the reach of all, as it is the cheapest and best article now in use. Its curative properties are almost miraculous Scald Head, Salt Rheum, stinge of insects, and all the numerous train of disagreeable cutaneous eruptions disappearing as if by magic.

ITS STRENGTHENING AND STIMULATING qualities are unrivaled, rousing into action the nerves and blood vessels which carry nutriment, imparting health to this greatest of nature's adornments (a beautiful head of hair) to the latest period of life.

FOR ERADICATING DANDRUFF it is unsurpassed. Cleansing the skin completely of every impurity, leaving the hair neither gummy, or dry, but moist, soft and silky. It is superior to all to dress the hair, as it does not soil the hat or head dress and keeps longer moist.

THE TRICOPHEROUS has gradually risen in favor with the public, by its own merits and not like the puffed and ephemeral compositions existing to-day, and swallowed in oblivion to-morrow, until it has become one of the staples of life, and looked for by all as one of the necessaries of the toilet and medicine chest.

The known popularity of the Tricopherous has occasioned many spurious articles, bearing outwardly the same name and character. Ladies and Gentlemen purchasing must therefore be careful to ask for CLIREHUGH'S TRICOPHEROUS.

Prepared by Vic Clirehugh, New York, and for sale by his only wholesale and retail agents.

LYON'S KATHAIRON FOR THE HAIR.

IF past unrivalled popularity, and and an unprecedented rapid daily increase in public favor, are any tests of an articles merit, high merit must surely be awarded to Lyon's Kathairon. The fact is those who use Lyon's Kathairon once, will never use any thing else; and why is it? The Kathairon every one finds just what it claims to be. They find it will prevent scurf and eradicate dandruff. If the hair is falling off, it stops it. The scalp is speedily restored to its natural state, the secretive vessels become lively and healthful and consequent unwonted growth and vigor is at once imparted to the hair.

As a toilet article the Kathairon is without equal. It gives to the hair a pleasing perfume, a richness of lustre, beauty and luxuriance that no similar preparation can possibly give.

FORMODENTA.

STRANGE, indeed, that so few realize how essential to female beauty, and manly elegance, are a fine set of polished teeth; nothing contributes more toward it; nothing detracts more essentially from it, than neglected, and consequently discolored and disfiguring teeth. They are as essential to health as to beauty, for it is impossible to inhale through decayed or unclean Teeth, without affecting the lungs and stomach, frequently to a serious extent. In offering as a remedy for this evil the FORMODENTA, MESS. HAZARD & CO. are satisfied that they furnish at once the most perfectly safe, elegant, agreeable, effectual, and withal cheap preparation known for cleaning and polishing the Teeth, hardening the gums, purifying and perfuming the breath. In its present improved state it has recieved the approbation of every one who has used it, and is just what it assumes to be. For soft, receding or diseased gums, the AMBER GUM WASH accompanies it, producing a rich and agreeable lather in the mouth, cleansing it effectually, and will cure any ordinary disease of the gums in a short time. Together, they form an elegant and necessary appendage to every toilet; No lady should be without them.

SODA WATER.

IN offering again this delightful beverage to our customers, we feel confident that we now furnish it of an unsurpassable quality, and in a greater variety of styles than it has ever been used in this country. Our fountains, coolers, draught tubes, &c., were manufactured for us expressly, in New York. The water is furnished by Rushton, Clark & Co., whose celebrity is universal as the first manufacturers in this country, is undeniable; and the Syrups in great variety are prepared at our own Laboratory, from ripe fruits, and unadulterated materials. Three years' experience in their manufacture, in the Irving House Drug Store, New York, enables us to promise purer and richer syrups than can ordinarily be obtained. Our list, for the season, which will be completed as fast as the fruits can be procured are,—Strawberry, Blackberry, Rose, Vanilla, Pine Apple, Nectar, Ginger, Orange Flower, Peach, Moka Coffee, Chocolate, Tonic, Raspberry, Cherry Fruit, Orgeat, Lemon, True Sarsaparilla, Orange, Guimauve, Yolk of Egg, Quince, Red Currant, Calamus, Wild Cherry. Our coolers are on an original plan, and produce an amount of cold unattainable by the ordinary method. Our fountains will be in operation during the summer, the sale being suspended on the Sabbath.
